Do you need help with your business?

Finding out where to get quality services is often a challenge, particularly if your need touches several different specialist areas. The Signature Network provides the skills that you need from a single source. Our expertise ranges from increasing sales and reducing costs right through to those tricky customers, people and financial issues.

What our Clients Say -

Gardeneer Services won a fantastic 'marketing' prize in the form of £10,000 worth of business support on advertising, marketing, design and development.

Signature Network has been professional, enthusiastic and helpful in developing our 'new' brand literature and formalising our customer service standards and the 'look' of our growing gardening and landscaping business. Throughout the consultations, briefings and 'spending' of prize monies, Signature has introduced us to printers, editors, design specialists and web designers. All have been professional, courteous and helpful but more importantly have delivered a great result at the end of the process. We are still working with Signature Network and its associated companies to ensure our business benefits fully from its input and support.

MD Construction

"We needed to communicate to our staff the direction and key objectives of the business for the coming year. My partner, senior managers and I worked with Dave and Malcolm to produce our strategy. We now have a straightforward and effective business plan that everyone can access but more importantly can understand where they make a contribution."
- Oliver McGovern, Managing Director, MD Construction

Westgate School

This is a designated Business & Enterprise College, based in Slough, and admits pupils of all abilities. Currently there are 801 boys and girls attending and this number is expected to grow towards 900 over the next couple years.

Signature Network's challenge was to implement a Virtual Learning Platform (VLP) that will allow both pupils and teachers to securely access schoolwork from their home PC, or indeed any PC anywhere in the world.

The outcome is that the school had previously invested in a system, which proved unsuccessful. Therefore, Westgate was most concerned it made the right decision for its future. After carefully considering each of the presentations made, the school agreed with Signature Network's recommendation and has just signed a £29,000 connectivity agreement. This is over £45,000 cheaper than the cost of one possible solution, which only covered the basic hardware costs and excluded connectivity. The new VLP will provide a remote learning platform that will empower both pupils and staff to experience the working environment of 'tomorrow's world'.

Maple Group

When we won the Signature Network award my Transport Services business was at a crossroads and I had to decide which direction to take the company. It's hard for owner Managers like me to work on development of the business whilst also working every day in the midst of it. We had several options but I knew that doing nothing was not one of them. Practical hands-on advice from outside the business was exactly what I needed to evaluate our options. Malcolm Wicks from Signature Network helped us consider the options as well as highlighting several operational issues that needed to be fixed immediately, whatever we decided to do. Good solid advice from professionals always helps you think from the point of view of your own customers and is very valuable.

Running your own business can be a lonely place and I'd have no hesitation in recommending Malcolm and Signature Network to other owner Managing Directors who need to think through the future strategies and priorities of their business.

- Clive Maple, MD

Why Signature Network?

The Signature Network has a proven track record of delivering leading-edge business solutions, combining vision with practicality. Founded in 2004, The Signature Network is supported by ten well-established service companies based within the Thames Valley. These companies cover areas as diverse as Sales and Marketing (Strategy & delivery), Telephony and connectivity, Web and Internet Solutions, Human Resources and Finance. These companies are involved in all aspects of business planning, development and implementation allowing you to have a broad range of expertise under one roof rather than having to find separate suppliers in these areas. The combined client list reads like a 'Who's Who' and includes both global and national brands. The pool of experience within The Signature Network is just waiting to be tapped. For a short cut to the road to improved business success look no further.
